

INSTRUCTIONS

A4 FORMAT: 21x29,7cm
(document format)

PRINTABLE AREA: 21x29,7cm
(print format)

CUT CONTOUR
(cutting contour)

- 1 Position your logos on the **Template** layer.
- 2 Orient the logos in the same way and in the normal reading direction (no mirror images).
- 3 Elements or texts under 8 mm must be included in a simpler shape.
- 4 Leave 1 to 2 cm between the logos to facilitate the cutting.
- 5 Vectorize the elements and texts, if present.
- 6 If it is an image file, the recommended minimum resolution is 150 dpi (below, the rendering may be pixelated).
- 7 **IMPORTANT:** Place your cutting contour on the **Cut Contour** layer, in **100% magenta** color.
- 8 **IMPORTANT:** Save in .ai / .eps / .pdf format.
